## Hiring Team

Voya Financial

Remote

Dear Hiring Team,

I am writing to express my strong interest in the Voya Financial Technology Internship opportunity. As a Computer Information Systems major with a concentration in Cybersecurity at the University of Louisville, I am excited by the prospect of contributing to a mission-driven organization committed to expanding financial opportunity and fostering inclusive growth.

My academic background has equipped me with a solid foundation in cybersecurity, data management, and IT systems. Through coursework and hands-on labs, I've developed technical proficiencies in network security, risk analysis, and systems architecture. I'm currently maintaining a GPA above 3.2 and pride myself on being a quick learner and proactive collaborator, traits that align closely with Voya's core values of boldness, action, and inclusivity.

I am particularly drawn to this internship because of the flexibility it offers and the exposure to multiple areas of IT, from digital platforms to enterprise architecture and security services. My passion lies in using technology to build secure, scalable, and user-centered solutions, and I am eager to learn from Voya's forward-thinking teams to deepen that capability.

Voya's commitment to purpose-driven innovation and a culture of openness resonates with me personally and professionally. I am excited about the possibility of working in an environment that values diverse perspectives and empowers individuals to grow.

Thank you for considering my application. I would welcome the opportunity to further discuss how my background and enthusiasm align with the goals of your team. I am confident I can contribute meaningfully to Voya's mission and learn a great deal along the way.

Sincerely,

**Deven Johnson**
